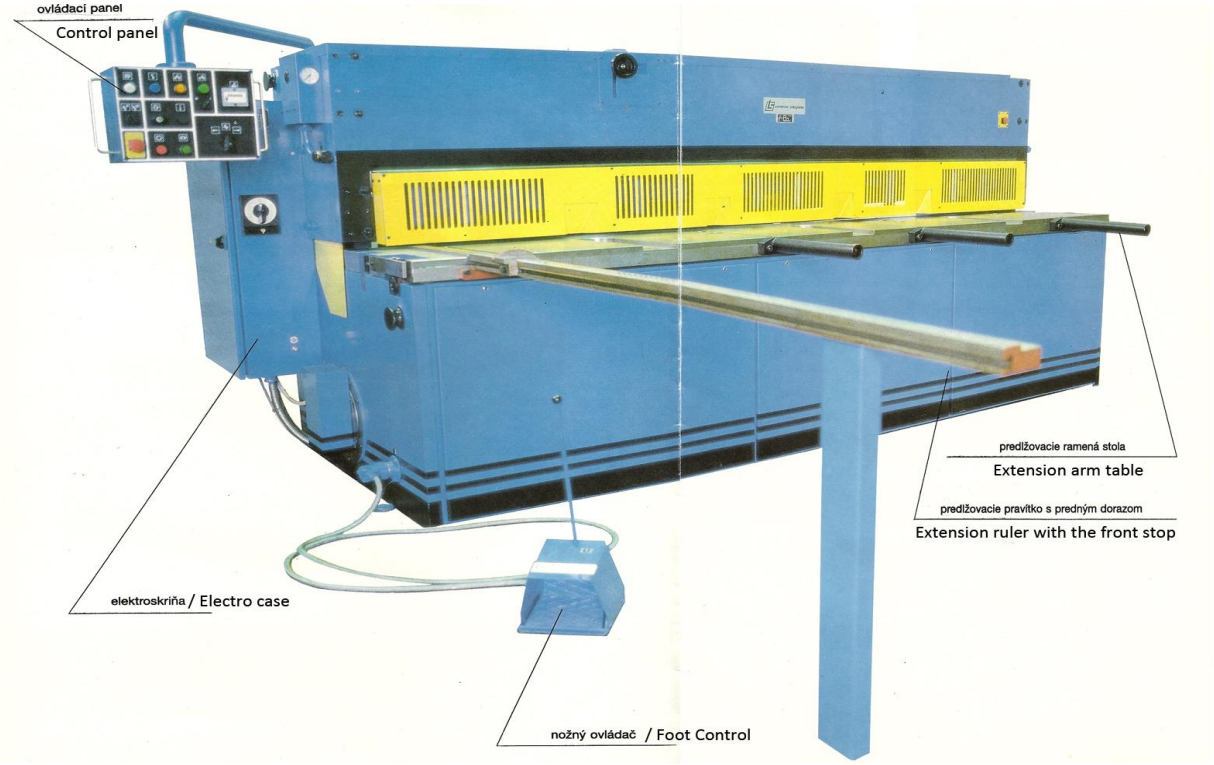
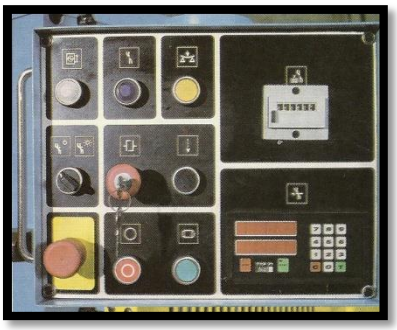
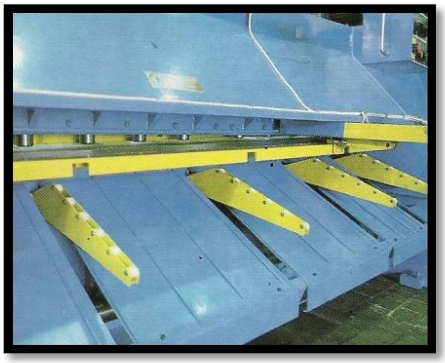
NTE-E





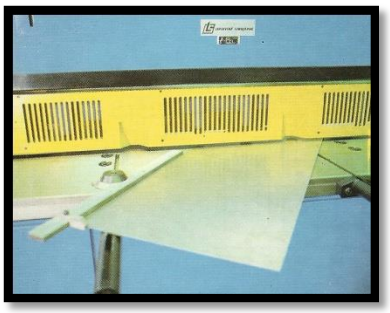
Systém ELGO slúži na nastavenie požadovanej miery zadného dorazu.

The control system ELGO is used to set desired length of back gauge.



Podpera tenkých plechov slúži na ich podopieranie pri dlhších strihoch.

The back support for thin metal sheet is used for their support during the cutting of long sheets.

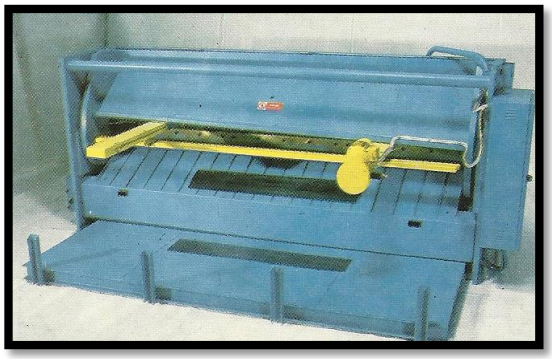


Uhlové pravítko

Angle ruler

Elektro motorom riadený zadný doraz s prestaviteľnosťou do 1000mm.

Electric motor controlled back gauge with adjustability up to 1000mm.

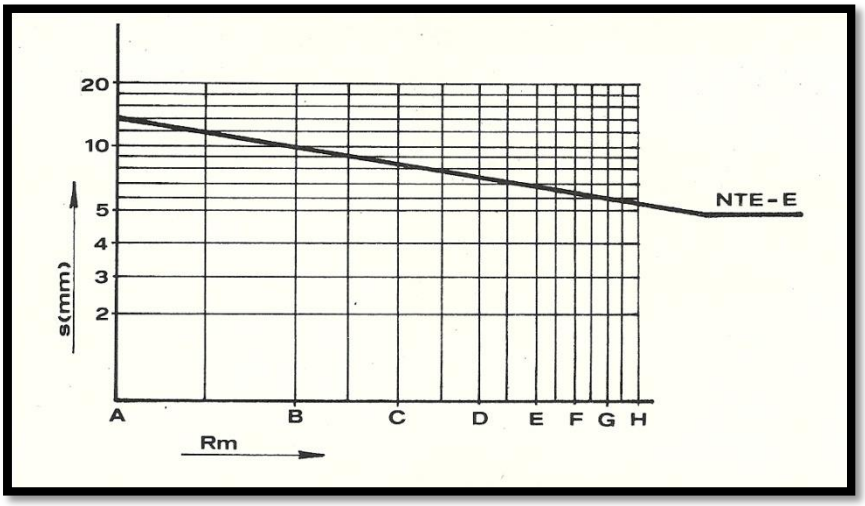


Manipulačný vozík na odstrižky.

Handling trimmings cart.

Štandardné vybavenie	Standard equipment
Nožný elektrický ovládač	Electric foot control
Predlžovacie ramená stola	Extension arm table
Antimagnetické mierky	Anti-magnetic scale
Kotviaci materiál	Anchor material
Súprava kľúčov a náradia	A set of keys and tools
Pravítko pre strihanie na prednom doraze	Ruler for cutting on the front gauge
Technická dokumentácia	Technical documentation

Diagram závislosti hrúbky na pevnosti strihaného materiálu

Diagram depending on the thickness of the material strength of the sheared


Arm	100MPa	***Crm***	300MPa	***Erm***	500MPa	***Grm***	700MPa
Brm	200MPa	***Drm***	400MPa	***Frm***	600MPa	***Hrm***	800MPa
